

## St. Bernadette's Primary School Fees and Levies 2022

St. Bernadette's School is a non-profit organisation. Fee payments from parents is essential income required to provide the high level of teaching programs, student support and physical facilities that are offered.

St Bernadette's family school fees are extremely reasonable in comparison to other Catholic Primary Schools. This relates to the school's belief that a quality education should be available for all.

The school fees consist of a **Family Fee** component and a per **Student Levy** component. It does not matter if you have one child, or two or more, the family fee component remains the same. The **Student Levy** component covers the cost of delivering the Curriculum and includes specialist programs as well as incursions and excursions. This is a **per student** levy. The student levies will be determined by which year level the student is in and are also inclusive of camp, sports and swimming.

**For 2022 these are as follows:**
